I learned so many expressions and phrases that are used regularly in North America. I made lots and lots of friends in ACE.

Sheila, San Paolo, Brazil

How wonderful. All the teachers and assistants at ACE always correct my mistakes. The ESL class was very helpful. Thank you.

Edward, China

ESL: Speaking Certificate Course

ACE is famous for being the leader in improving speaking and listening skills for students around the world.

Our teaching approach is to develop your English language skills for real situations. ACE will help you quickly learn the necessary vocabulary, idioms and phrasal verbs in conversation. Although textbooks are an important part of our curriculum, our teachers also use many different methods to help you learn and use English in everyday situations such as community tasks, role plays, and fun activities.

Teacher to Student Ratio is 4:1
(almost like private tutoring)

I feel very much at home when coming to ACE. I am not afraid to make mistakes during class and I love playing soccer and other activities with my friends and staff from the school. Thanks for everything.

Atsuko, Japan

My goal in every class is to get all the students speaking and to really start using English in a communicative manner. I believe the school atmosphere created by the students, teachers and staff make ACE a great place to learn English.
